

Mobile phone recovery and repair services.

When data is lost, discover what is recoverable quickly, easily and without commitment.

FREE CONSULTATION

Our Data Recovery Consultants will:

- Assess your data loss
- Determine the best, most cost-effective solution and pricing options
- Advise on next steps to take

FREE IN-LAB MEDIA EVALUATION

Our Data Recovery Evaluation Team will:

- Provide an expert inspection of your media on an average 2 days of the media arriving at our labs
- Create a free analysis report detailing the specifics of your data recovery case
- Propose recovery and/or repair options with a fixed pricing quotation

DATA RECOVERY PROCESS

Our Data Recovery Expert Engineers will:

- Overcome internal and physical problems with your media in order to image the raw data
- Rebuild the file structures from the image and recover the data
- Repair the device, if you have chosen this option for your mobile or tablet

DATA RETURN

Our Post-Recovery Team will:

- Return your data on a free, encrypted USB
- Ship your data for free via next day courier or organise secure online file transfer
- Liaise with you to ensure data is successfully restored
