

Ontrack® EasyRecovery™ Photo for Windows and Mac

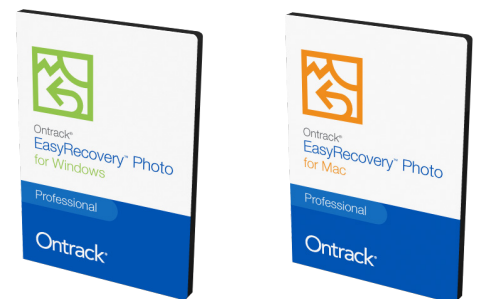

is a Do-It-Yourself software to recover media files lost due to deletion, corruption or accidental formatting. It works with all major camera, drones, pc, memory cards, USB Flash Drives and more. It is available in two versions for both Windows and MAC operating systems: **Professional and Technician!**

Both versions – Professional and Technician – are bundled with **Ontrack® JPEG Repair**, which is the best DIY tool to repair corrupt or damaged photos having the .JPG or .JPEG file extension.

Only Ontrack® EasyRecovery™ Photo Technician is additionally (together with Ontrack® JPEG Repair) bundled with **Ontrack® Video Repair**.

Ontrack® Video Repair is the world's best tool for repairing corrupt, broken, or damaged MP4, MOV, and other video file formats. It will fix videos that were corrupted during the shoot, when performing file transfers, or while editing, converting, or processing files.

Here is a detailed comparison of what the different versions offer:
